

Material Safety Data Sheet

hazard information

Hazard information is provided for compliance with both the UK Chemicals (Hazard Information and Packaging) (CHIP) Regulations and the US Hazard Communication Standard (HCS).

Identification of the Substance/Preparation and Company:

Product name	Product code	EEC number
TE (Tris-EDTA) Buffer, 50X Solution, Ultrapure	GR144-100	None

Supplier

Hoefler, Inc., 953 Indiana Street, San Francisco, CA 94107
Phone: 800-227-4750

Emergency Contact

Chemtrec: 800-424-9300
Outside USA and Canada: 703-527-3887

Composition/Hazardous Components:

Hazard	CAS No.	%WT	TLV	CHIP R & S Phrases
Tris-HCl	1185-53-1	~7.9%	---	<i>R:36/37/38</i> Irritating to eyes, respiratory system and skin. <i>S:23</i> Do not breathe vapour. <i>S:36/37</i> Wear suitable protective clothing and gloves.
EDTA	6381-92-6	~1.7%	---	
For the mixture				

Hazards Identification

CHIP: Irritant
HCS: Irritant

First-aid Measures

EYES: Flush with water for 15 minutes. Seek medical advice if irritation persists.

SKIN: Flush with water, then wash thoroughly with soap and water. Remove contaminated clothing and wash before reuse. Seek medical attention if irritation persists.

INHALATION: Remove the victim from exposure and move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Keep victim quiet and warm. Seek immediate medical attention.

INGESTION: Drink water and seek immediate medical attention. Avoid alcoholic beverages. Never give anything by mouth to an unconscious person.

Fire-fighting Information

FLASH POINT: No data available

Use media suitable to extinguish the supporting or surrounding fire. Wear NIOSH (or equivalent) approved self contained breathing apparatus. *For small fires only:* use carbon dioxide, dry powder or foam. May produce toxic fumes under fire conditions.

This data sheet is based upon information believed to be reliable. The Company makes no statement or warranty as to the accuracy or completeness of the information contained herein which is offered for your consideration, investigation and verification. Any use of the information contained in this data sheet must be determined by the user to be in accordance with appropriate applicable regulations.

Accidental Release Measures

Wear appropriate personal protective equipment and clothing including lab coat, safety glasses, gloves and NIOSH-approved respirator. Collect in a manner that does not create dust and place in a suitable waste container. Avoid contact of material with skin or eyes. Use adequate ventilation.

Handling and Storage

Wear appropriate personal protective equipment and clothing including lab coat, safety glasses, gloves and NIOSH-approved respirator. Avoid contact of material with skin or eyes. Use adequate ventilation. Store ambient away from oxidizing material. Avoid excessive heat.

Personal Protection

Wear appropriate personal protective equipment and clothing including lab coat, safety glasses, gloves and NIOSH-approved respirator. A qualified industrial hygienist should evaluate the need for respiratory protection. Use respiratory protection approved by NIOSH (or equivalent) and appropriate to the hazard. Avoid contact of material with skin or eyes. Mechanical ventilation or local exhaust as needed to control exposure to dust, vapors or mists. Access to a safety shower and eye-wash.

Physical and Chemical Properties

Appearance: Clear, colorless solution

Boiling Point: No data available

Vapor Pressure: No data available

Vapor Density: No data available

Solubility (Water): Soluble

Specific Gravity: For EDTA = 45 lbs/ft³ (bulk density)

Percent Volatile: No data available

Evaporation Rate: No data available

Chemical Formula: Mixture

Stability and Reactivity

Product is stable. Avoid excessive heat. Incompatible with oxidizing materials. For EDTA: Aluminum reacts with water solutions of product to release hydrogen. Hazardous decomposition may produce toxic fumes.

Hazardous polymerization will not occur.

Toxicological Information

Effects of overexposure:

For Tris-HCL:

EYES: Contact may cause irritation.

SKIN: Contact may cause redness, swelling and pain at any site, especially mucous membranes.

INHALATION: Excessive inhalation of dust may cause irritation, cough and shortness of breath.

INGESTION: Chronic ingestion or excessive dosage may cause nausea, vomiting and diarrhea; large amounts may cause muscle weakness, collapse and coma.

For EDTA:

EYES: Contact may cause irritation and slight corneal injury.

SKIN: Contact may cause irritation and/or allergic reaction.

INHALATION: Breathing dust or vapors may cause irritation if inhaled.

INGESTION: Chronic ingestion or excessive dosage may cause irritation of mouth, throat, esophagus and gastrointestinal tract.

Additional Information:

For Tris-HCL:

May cause irritation to eyes, skin and mucous membranes.

For EDTA:

Mutation data listed in RTECS under AH4410000.

Inhaling nuisance dust may cause coughing, wheezing, respiratory distress and mucous membrane irritation. Product is a strong chelating agent and ingestion of large amounts may cause hypocalcemic tetany with spontaneous recovery.

Sodium salts of EDTA have been reported to cause birth defects in animals at very high doses not expected in occupational exposures. These effects were observed only at high dose levels that were toxic to the animal's mother.

Ecological Information

No information available.

Disposal Considerations

Dispose of material in accordance with applicable local, state, and federal regulations.

Transportation Information

US DOT/IATA: No applicable information.

Regulatory Information

RCRA: No applicable information.

SARA 302: No applicable information.

SARA 313: No applicable information.

EPA TSCA Section 8(b): No applicable information.

Exposure Limits: Not established.

California Proposition 65: No applicable information.
